

Gently dry even delicates at half the temperature*

The 900 DelicateCare Washer Dryer, with our most advanced heat pump technology, dries fabrics at half the temperature.* Precise movements wash and dry wool, outdoor garments, and even ensure that delicate silk fabrics keep their shape.** Delicate and thorough for both washing and drying.

*Based on internal tests, comparing maximum air drum inlet temperature of heat pump and traditional condense washer dryer
**Compared to air drying

Bénéfices et Caractéristiques

Heat Pump low-temperature drying cuts energy use by up to 55%**

Protect your clothes from unnecessary heat and save up to 55% of energy with the Heat Pump.** It dries at half the temperature* and empowers B-class energy efficiency for the non-stop wash+dry cycle.

No shrinkage guaranteed for wool while washing and drying with DualCare®*

DualCare® lets you wash and dry with confidence. This Woolmark Blue-certified machine, with tailored temperatures and drum movements, effectively washes and dries even outdoor jackets and wool sweaters with no shrinkage guaranteed.*

*Based on internal tests, comparing maximum air drum inlet temperature of heat pump and traditional condense washer dryer

** Based on internal tests, comparing heat pump and traditional condense washer dryer energy consumption of delicate items using the 40°C Eco 40-60 cycle at maximum load (9kg 15°C)

*Comparable with flat drying.

SensiCare+ with Weight Sensorsaves up to 40% of time, energy and water per wash.*

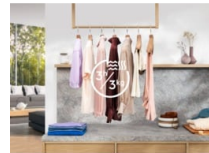

SensiCare+ with Weight Sensor is our most advanced solution that detects each load and adjusts the cycle so your clothes are washed and dried in optimal time. It saves up to 40% of time, energy and water per wash.* The machine allows you to see the weight on the screen instantly

Exceptional clothing care at the tap of your smartphone

With the MyElectrolux app, you can remotely control laundry appliances from your smartphone. Use the Care Advisor feature to get expert guidance on how to best clean your clothes. MyFavourites saves settings for the clothes you wear often.

*Based on internal test of time, water and energy consumption of a 1kg load compared to max load in Cotton cycle 30°C using SensiCare+ which adjusts the washing programme based on load size.

The One GO 3h/3kg programme: Convenient care with no compromise

From dry to dry in just three hours with the One GO 3h/3kg programme. Get ready-to-wear results on-demand with one seamless process. The most convenient way to care for clothes without compromise.

- SOIN DU LINGE
- PerfectCare 900 - Lave-linge séchant / Système DelicateCare™
- Technologie pompe à chaleur
- Certification Woolmark® Blue en lavage et séchage
- Fonction vapeur
- Time manager®
- Volume tambour 69 L
- CARACTÉRISTIQUES
- Capacités Lavage/séchage: 10/6
- Connectivité Wi-Fi
- Moteur Eco Inverter
- Capacité variable automatique
- PROGRAMMES
- Programmes dont : Eco 40-60, coton, synthétiques, délicats, soie, laine/lavage main , Propre&Sec 3h/3kg, FreshScent (vapeur)
- Options: Anti-froissage, Taches, Départ différé
- CONFORT et SÉCURITÉ
- Pesée électronique
- Temps ajusté en 30' et alerte de surcharge
- Sécurité anti-débordement
- 4 pieds réglables
- DESIGN
- Ecran LCD avec grande interface
- Hublot XXXL noir teinté
- ACCESSOIRES compatibles en option
- Piedestal avec tiroir coulissant N1WYHPE1

Spécifications techniques

Produit EcoLine	Oui	Vitesse d'essorage maxi commerciale (tr/min)	1600
Type de l'appareil	Lave-linge séchant	Classe d'efficacité sonore	B
Type d'installation	Pose-libre	Niveau sonore (dB)	76
Capacité maxi du tambour (kg)	10	Conso. énergétique mode "arrêt" (W)	0.50
Capacité maxi de séchage (kg)	6	Conso. énergétique mode "Laissé sur marche" (W)	0.5
Volume du tambour (L)	69	Dimensions hors tout HxLxP mini/maxi (mm)	870x597x636/660
Classe énergétique lavage & séchage	B	Dimensions emballées HxLxP (mm)	915x640x710
Classe énergétique lavage	A	Poids brut/net (kg)	99 / 97.5
Indice d'efficacité de lavage	1.031	Puissance Totale (W)	2100
Consommation en électricité en kWh/100 cycles lavage & séchage	206	Ampérage (A)	10
Consommation en électricité en kWh/100 cycles	51	Volts	230
Consommation en eau en litres/cycle lavage & séchage	48	Longueur du câble (m)	1.7
Consommation en eau en litres/cycle	47		
Durée du cycle Eco 40-60 pleine charge (h:mn) lavage & séchage	8:50		
Durée du cycle Eco 40-60 pleine charge (h:mn)	3:55		
Durée du cycle Eco 40-60 demi charge (h:mn) lavage & séchage	5:45		
Durée du cycle Eco 40-60 demi charge (h:mn)	2:50		
Classe d'efficacité d'essorage	B
